

AREBOS

AR-HSP-TA140 / AR-HSP-TA160

Follow all safety precautions in this user manual to ensure safe use.

Thank you for your trust in AREBOS.

Choking hazard due to plastic bags!
Keep children away.

General safety instructions

- Remove the thermal cover completely from the packaging and check it for damage/cracks before using the cover.
- Only store packaging parts (foils, plastic bags, polystyrene, etc.) in places that are not accessible to children, especially infants! Since packaging parts often pose unrecognizable hazards (e.g. risk of suffocation).

Usage

- Inflate the cover with the help of a pump (electric or manual). To do this, open the plug located on the edge

- We recommend using the thermal cover to heat up the water in the hot tub faster and keep the temperature longer, e.g. in winter. In addition, the cover ensures that no dirt or rainwater gets into the hot tub.

Technical data

	140cm ø	171cm ø
Weight	2.5 kg	2.8 kg
Color	Grey	Grey
Material	PVC	PVC
Diameter inflated	approx. 130 cm	approx. 150 cm
Diameter unfilled	approx. 140 cm	approx. 171 cm
Thickness	16 cm	16 cm

Disposal Notice

Disposal and packaging

- Please ensure that the packaging is disposed of appropriately in accordance with the guidelines and standards applicable in your region. In some cases, the packaging may consist of plastic bags - take special care to ensure that these do not fall into the hands of children. There is a risk of suffocation!
